MOOSE, CARIBOU OR BEAR HUNT

Nome, Alaska

Join us for a Moose, Caribou or Bear Hunt in the great State of Alaska, offering a taste of Alaska's last frontier. Most of our hunts operate out of remote temporary tent camps or spike camps, allowing for flexibility to move with the animals. You should expect most of the work for your hunt happens before you arrive with countless hours of flying, scouting and preparation for the best location to put clients in areas for a successful, efficient and exciting hunt.

Our team has multiple record book animals in Safari Club and Boone and Crockett, putting you in expert hands. Most of our hunts operate out of remote temporary tent camps or spike camps, allowing for flexibility to move with the animals.

SAMPLE ITINERARY

DAY 1:

Arrive in Nome, Alaska. You will be met at the airport by a staff member who will take you to the local shooting range to sight in your rifle or bow.

From there you will be transported to a remote cabin or spike camp by bush plane. If you are hunting bears, you can start hunting right away as our bear area starts on the way to the cabin. Locally sourced, homemade meals will be heated and served for dinner by staff.

DAY 2 - 6:

A light breakfast and coffee will be provided. At first daylight guides will accompany you from camp to begin hunting. Lunch/ snacks will be eaten in the field. At sunset you will be taken back to camp for dinner. Hunting will continue each day until your animal is down and packed to camp to be transported to Nome for cold storage. At this point additional animals such as wolves, bear, or caribou can be added onto your hunt.

DAY 7:

After breakfast, last morning hunt and preparation of your meat and cape for transportation by bush plane back to Nome with all gear and trophies.

TROPHY/MEAT POLICY

Your hides and skulls will be prepped for taxidermy, packaged and trans-ported to Nome.

Hunters may take up to an additional 100 pounds of meat, packaged into 50-pound boxes.

We can help package and freeze only a small quantity of meat for clients, as freezer space is limited.

Any trophy/meat that does not fit into your allowed airline baggage can be held in cold storage and shipped to Anchorage through Northern Air Cargo for an additional \$0.45 per pound.

For cold storage in Anchorage, we work with Dalton Refrigeration. For shipping from Alaska to destinations within the USA we work with Alaska Trophy Express, more information can be found on their website:

www.alaskatrophyexpress.com

There is approximately 600-800 pounds of meat on a moose. Unless prior arrangements are made the remainder of the moose meat is transferred to a local Alaskan Native village through a local Tribal Food Program.
