DOVE HUNT

Entre Rios, Argentina

Our resort is located in Entre Rios Province just a 2.5 hr drive outside of Buenos Aires. While Cordoba became widely popular in the early 2000's as the hot spot for hunting dove in Argentina, Entre Rios offers an arguable more consistent dove population with outfitter having solo access to three roosts to choose from all within a 40-minute drive from the resort.

The easy access to the hunt avoids to the hunt avoids potential delays upon arrival in Buenos Aires. Making the arrival day a REAL half day hunting and even makes possible a day of hunting from any hotel in Buenos Aires.

Doves start leaving the roost to find food at sunrise. The day starts with an early arrival to the field where you will be set up with your bird boy to assist you. Once the shooting starts it will only stop when you want it to. The doves come in steady and constantly throughout the morning. We operate with two guns at a time per hunter with your bird boy reloading as you shoot and swapping out to keep the guns cooled down and the pauses as short as possible. Once things slow down a little in the afternoon, you will break for lunch in the field. You will enjoy a variety of Argentina meats, salad, bread and dessert in the field to refuel for your afternoon hunt. After lunch, you will move to your afternoon hunting position to catch the doves as they fly back into the roost for the evening. This provides a change in pace and variety to your shooting day. Around sunset or when you are ready to call it for the day, you will head back to the resort to relax for the evening.

BRINGING A FIREARM TO ARGENTINA

We do not recommend bringing a firearm on your hunt but if you decide you would like to, we will assist you. If you have never brought a firearm to Argentina in the past or it's not a breech loading firearm, the process is pretty simple.

If the above does not apply, you will need to get approval by mail or in person by appointment from the Argentina consulate closest to you.
