WATERFOWL HUNT

Buenos Aires, Argentina

Our lodge is located in the province of Buenos Aires, approximately 300 kilometers (185 miles) northwest from Buenos Aires City. The lodge sits in a prime area for duck hunting where the population flourishes due to the limited pressure on the resource, expectational wetlands and its proximity to the migratory routes. This area's extensive grain production and increased rainfall for the last several years has created the ideal conditions for waterfowl providing large amounts of ponds, lakes and marshes for the birds.

ESTANCIAS

Upon arriving at your destination you will be greeted by the nostalgic feel of the old world. Lush grounds and charming architecture adds to the experience. One of the advantages of hunting from the estancia is the drive to the shooting areas is short, usually 40 minutes or less. We have 22,000 acres leased with about 50 percent of that being wetlands. The balance is used for cattle grazing and the cultivation of corn, soybeans, sorghum and wheat. This combination of marsh and agriculture provides excellent habitats for a wide variety of water birds.

DUCK SPECIES

These are 13 common duck species located in this area of Argentina that you will have a chance to see.

- Brown and Bahamas Pintails
- Fulvous Tree Duck
- White Tree Duck
- Rosy Billed Pochard
- Chilean Widgeon
- Red Shovel
- Silver Teal
- Speckled Teal
- Black Head Duck
- Ring Neck Teal
- Brazilian Teal
- Cinnamon Teal

BRINGING A FIREARM TO ARGENTINA

We do not recommend bringing a firearm on your hunt but if you decide to bring one, we will assist you. If you have never brought a firearm to Argentina in the past or the gun is not a breech loading firearm, the process is pretty simple.

If the above does not apply, you will need to get approval by mail or in person by appointment from the Argentina consulate closest to you.
